

## Basic Shape for a Cross-Legged Critter

Once you've learned how to create this basic shape, you can then make things like: a turkey, a Santa, a Leprechaun, a bunny--lots of different "critters." Have fun!

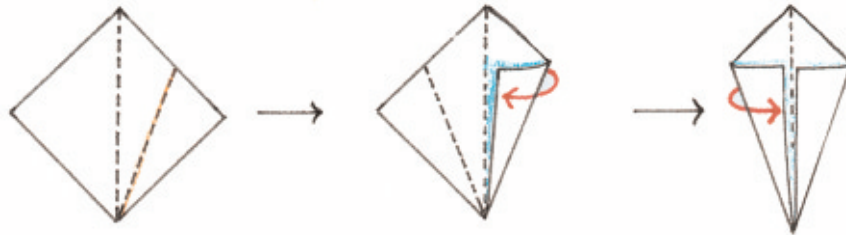

- ◆ 9" (22.8cm) square of construction paper
- ◆ scissors
- ◆ stapler

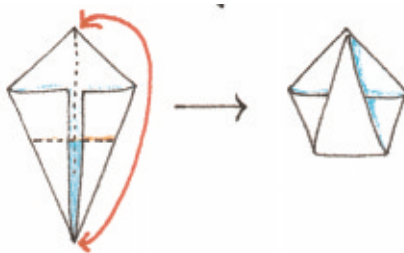

1. Fold

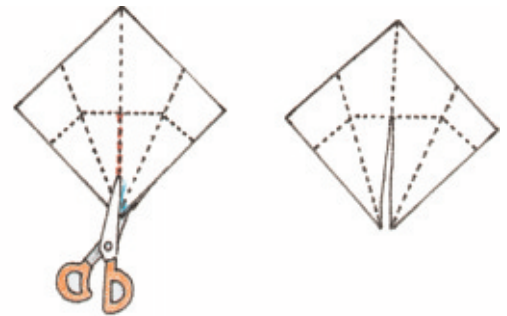

2. Open up and make two more folds, folding the outside edges to the center crease.

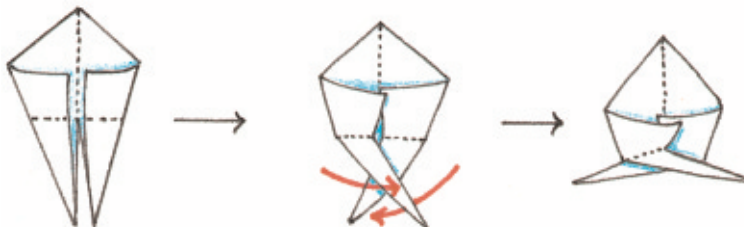

3. Fold narrow, bottom point to meet top point.

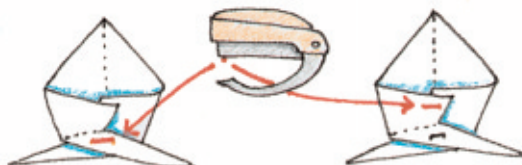

4. Open the paper. Cut up the center crease. STOP at the crease in the middle.

5. Re-fold the paper and cross the "legs."

6. Staple.

7. Put your hand inside and create a little pocket. Now it's ready to hold nuts, candy, notes--let your imagination go!
